

CLEO/QELS 2003

Technical Conference: June 1-6, 2003

Baltimore Convention Center, Baltimore, MD, USA

CLEO/QELS 2003 was a great success. The conference co-sponsors are thrilled to report an increase in technical attendance this year, up from 2002, bringing the conference nearly 5,500 attendees!

The 2003 technical program was stronger than ever. Paper submissions (including post-deadlines) reached an all-time high of 1,800, a 17% increase over 2002. We had a strong 1,226 papers presented at the conference, along with tutorials, short courses and the standing-room only LEAP program on the exhibit floor.

The exhibit itself was in full-force in 2003, with nearly [300 exhibiting companies](#) ranging from small, innovative new companies to established industry leaders.

As the conference where laser technology was first introduced, CLEO/QELS enjoys a prestigious history which extends to the present day.
